The Soat For the Missourl. The eccentric and variable Missouri river has "a personal friend" in George Fitch, who declares in the American Magazine that the stream is navigable enough if only the steamboats would conform to its peculiarities. "The Missouri river steamboat," says Mr. Fitch "should be shallow, lithe, deep chested and exceedingly strong in the stern wheel. It should be hinged in the middle and should be fitted with a suction dredge, so that when it cannot elimb over a sand bar it can assimilate The Missouri river steamboat should be able to make use of a channel, but should not have to depend upon it. A steamer that cannot on oc casion climb a steep clay bank, go across a cornfield and corner a river that is trying to get away has little excuse for trying to navigate the MissourL"

BIRD SUPERSTITIONS.

Queer Beliefs That Were Held by the Ancient Mariners.
